Description: 2023 NCHS Urban-Rural Classification Scheme for Counties, public
Recode: Yes
Universe: All
Universe Description: All cases
Sources:
Question ID:
Keywords: urbanization level

Notes: Information about the 2023 NCHS Urban-Rural classification scheme for counties is available at <https://www.cdc.gov/nchs/data-analysis-tools/urban-rural.html>. Large central metro are counties (or county equivalents) in metropolitan statistical areas (MSA) of 1 million or more population that contain the entire population of the largest principal city of the MSA or are completely contained in the largest principal city of the MSA or contain at least 250,000 residents of any principal city of the MSA. Large fringe metro are counties (or county equivalents) in MSAs of 1 million or more population that do not qualify as large central. Medium and small metro are counties (or county equivalents) in MSAs of 250,000 to 999,999 population and MSAs of less than 250,000 population. Nonmetropolitan are counties (or county equivalents) in micropolitan statistical areas and non-core counties.

Evaluation Report:

Unweighted frequencies:

URBRL23 2023 NCHS Urban-Rural Classification Scheme for Counties, public

Code	Description	Frequency	Percent
1	Large central metro	7089	29.28
2	Large fringe metro	6006	24.80
3	Medium and small metro	7534	31.11
4	Nonmetropolitan	3586	14.81

Variable Information:

Variable: AGE65
Module: Roster
Section: HHC : Household Composition
File(s): Adult
Data Type: Numeric
Length: 1
Question Text: ^AreIs ^youALIAS less than 65 years old or 65 years or older?
Fills: ^AreIs..... Are/Is
 ^youALIAS..... you/^ALIASNAME
 ^ALIASNAME..... {Value of ALIAS}
Description: Age 65 or older
Recode:
Universe: (AGE18=. AND AGENO IN (997, 998, 999)) OR AGE18=2
Universe Description: No numerical age provided and person is 18 or over
Sources:
Question ID: HHC.0240.00.1
Keywords: demographics

Notes: This variable is collected during rostering from a household respondent who answered refuse or don't know to the age of a household member who is subsequently selected as the Sample Adult, and for whom the household respondent indicated that the person is 18 and over. AGE65 may be inconsistent with AGE_P_A because AGE_P_A is confirmed with the Sample Adult respondent and uses date of birth to verify age. Analysts may use AGE65 when AGE_P_A is unknown for categorizing Sample Adults less than age 65 and 65 and over.

Evaluation Report:

Unweighted frequencies:

AGE65 Age 65 or older

Code	Description	Frequency	Percent

2025 NATIONAL HEALTH INTERVIEW SURVEY (NHIS)
Codebook for Sample Adult File (Version: 29 July 2026)
PUBLIC USE

Variable Information:

Variable: LIVEBIRTH1_A

Module: Adult

Section: BMI : Current pregnancy, height, weight

File(s): Adult

Data Type: Numeric

Length: 1

Question Text: During the past 12 months, did you have a pregnancy that ended in a live birth?

Description: Any live births

Recode:

Universe: HHSTAT_A=1 and SEX_A=2 and (18<=AGEP_A<=49 or AGEP_A IN (997,999)) and PREGNOW_A ne 7

Universe Description: Female sample adults aged 18-49 or age is refused or don't know who did not refuse to say if they are currently pregnant

Sources:

Question ID: BMI.0015.00.3

Keywords: childbirth; parturition

Notes: This question was fielded in the IMS section in 2019-2024 and moved to the BMI section starting in 2025 using an updated variable name.

Evaluation Report:

Unweighted frequencies:

LIVEBIRTH1_A Any live births

2025 NATIONAL HEALTH INTERVIEW SURVEY (NHIS)
Codebook for Sample Adult File (Version: 29 July 2026)
PUBLIC USE

Variable Information:

Variable: HEIGHTTC_A
Module: Adult
Section: BMI : Current pregnancy, height, weight
File(s): Adult
Data Type: Numeric
Length: 2
Question Text:
Description: Height without shoes (inches), Public Use
Recode: Yes
Universe: HHSTAT_A=1
Universe Description: Sample adults 18+
Sources: HEIGHT_A
Question ID:
Keywords: stature
Notes: HEIGHTTC_A includes values of 63-76 inches for men and 59-70 inches for women. Not available (96) refers to persons who had extreme values in either height or weight or both. Additionally since 2019, all sample adults for whom sex was answered as don't know or refused were also coded as 96 for height and 996 for weight due to the sex-specific height and weight limits for public data release. See Survey Description Document for details.

Evaluation Report:

Unweighted frequencies:

HEIGHTTC_A Height without shoes (inches), Public Use

PUBLIC USE

Variable Information:

Variable: BMICAT_A
Module: Adult
Section: BMI : Current pregnancy, height, weight
File(s): Adult
Data Type: Numeric
Length: 1
Question Text:
Description: Categorical Body Mass Index, Public Use
Recode: Yes
Universe: HHSTAT_A=1
Universe Description: Sample adults 18+
Sources: BMI_A; BMI_A_1
Question ID:
Keywords: Body Mass Index; height; weight; BMI category; underweight; healthy weight; overweight; obese; obesity
Notes: BMI was calculated using the inhouse version of the height and weight variables, which contain the greater range of height and weight values than are available on the public use file. The range of possible BMI values listed (0001-9994) does not reflect actual calculated BMI values at the extremes of the range, but rather, allows for the theoretical possibility of such unlikely values. BMI = [Weight (kg)/[Height (m) squared]] rounded to 2 decimal places. Conversion factors: 1 kilogram (kg) = 2.20462 pounds; 1 meter (m) = 39.37008 inches. For both men and women, underweight is BMI < 18.5; healthy weight is BMI 18.5 to <25; overweight is BMI >= 25 to <30; obese is BMI >= 30.

Evaluation Report:

Unweighted frequencies:

BMICAT_A Categorical Body Mass Index, Public Use

Code	Description	Frequency	Percent
1	Underweight	364	1.50
2	Healthy weight	7518	31.05

Keywords: motor skills; Washington Group

Notes: Indicator of disability status based on the Washington Group Short Set on Functioning (WG-SS) that identifies Sample Adults who are at greater risk than the general population for experiencing restrictions in participation because of difficulties doing certain universal, basic actions. This recode classifies Sample Adults with disability as those reporting "a lot of difficulty" or "cannot do at all" for at least one of six domains of functioning: seeing (even if wearing glasses), hearing (even if wearing hearing aids), mobility (walking or climbing stairs), communication (understanding or being understood by others), cognition (remembering or concentrating), and self-care (such as washing all over or dressing). The remaining Sample Adults, that is those who responded "some difficulty" or "no difficulty" to at least one domain (and did not report "a lot of difficulty" or "cannot do at all" for any of the six domains of functioning) are classified as without disability. Those responding "don't know" or "refused" to all six questions are excluded.

Length: 1
Question Text: Have you had a colonoscopy, a sigmoidoscopy, or both?

** **Read if necessary:** For a colonoscopy, the doctor checks the entire colon, and you are given medication through a needle in your arm to make you sleepy, and told to have someone take you home. For a sigmoidoscopy, the doctor checks only part of the colon and you are fully awake.*

Enter 'DK' if respondent has had a colonoscopy or sigmoidoscopy, but doesn't know which.

Description: Had a colonoscopy or sigmoidoscopy or both

Recode:

File(s): Adult

Data Type: Numeric

Length: 1

Question Text: CT colonography, sometimes called virtual colonoscopy, is a test that looks for cancer in the colon. Unlike regular colonoscopies, you do not need medication to make you sleepy during the test. In this test, your colon is filled with air and you are moved through a donut-shaped X-ray machine as you lie on your back and then your stomach. Have you ever had a CT colonography or virtual colonoscopy?

Description: Ever had a colonography or virtual colonoscopy

PUBLIC USE

Variable Information:

Variable: TDAPPREG1_A

Module: Adult

Section: IMS : Immunization

File(s): Adult

Data Type: Numeric

Length: 1

Question Text: A Tdap vaccination is a tetanus booster shot that also includes pertussis (per-TUH-sis) or whooping cough vaccine. Earlier you said that you had a pregnancy that ended in a live birth during the past 12 months. Did you receive a Tdap vaccine during this pregnancy?

Description: Have a Tdap booster shot

Recode:

Universe: HHSTAT_A=1 and SEX_A=2 and (18<=AGEP_A<=49 or AGEP_A IN (97,99)) and LIVEBIRTH1_A=1

Universe Description: Female Sample Adults 18-49 or who refused or don't know their age who had a live birth in the past 12 months

Sources:

Question ID: IMS.0100.00.3

Keywords: pertussis; whooping cough; Td; tdap; pregnancy; prenatal

Notes: The variable name was changed in 2025 because a question used in the universe has had a variable name change as it is now asked earlier in the interview.

Evaluation Report:
